

Southern Cross  
UNIVERSITY

# RESEARCH

Southern Cross University is a dynamic, contemporary Australian university with more than 15,000 students from around 60 countries. It is proud of its reputation for quality teaching and the strength of its research achievements. It is established under its own Act of Parliament and is a full member of the almost 500 institution-strong global Association of Commonwealth Universities.

CRICOS 01241G

## Research at Southern Cross University

Southern Cross University concentrates on developing research activities in fields of national and international significance and has a dynamic research profile, participating in eight National Co-operative Research Centres, leading the way in disciplines as diverse as plant genetics and cetacean research.

Research Centres have been established at Southern Cross University in:

- Aged Services Learning and Research Centre (ASLaRC)
- Australian Centre for Complementary Medicine Education and Research
- Australian Regional Tourism Research Centre
- Centre for Acid Sulphate Soil Research
- Centre for Animal Conservation Genetics
- Centre for Children and Young People
- Centre for Regional Climate Change Studies
- Centre for Coastal Biogeochemistry
- Centre for Coastal Management
- Centre for Coral Reef Research
- Centre for Ecotechnology
- Centre for Environmental Engineering and Geochemistry
- Centre for Gambling Education and Research
- Centre for Earth Systems Science
- Centre for Geoinformatics Research and Environmental Assessment Technology
- Centre for Peace and Social Justice
- Centre for Phytochemistry and Pharmacology
- Centre for Plant Conservation Genetics
- Centre for Sustainable Forestry
- Ecosystem Assessment and Monitoring Program
- Fisheries Research Centre
- National Marine Science Centre
- Program for Indigenous Fisheries and Traditional Biodiversity
- Southern Cross University Whale Research Centre
- Wildlife Research Program

## **Southern Cross University is a partner in the following Cooperative Research Centres**

- Contamination Assessment and Remediation of the Environment
- Desert Knowledge
- Forestry CRC
- Grain Foods CRC
- Molecular Plant Breeding
- National Plant Biosecurity
- Rail CRC
- Sugar Industry Innovation through Biotechnology CRC
- Sustainable Tourism

For more information on Cooperative Research Centres and their contact details, go to: [www.scu.edu.au/research/index.php/3/](http://www.scu.edu.au/research/index.php/3/)

## **Research Degree Admission Requirements and Applications**

Information about award rules, admission requirements and applying for PhDs and Masters by Research can be found by following the links at: [www.scu.edu.au/research/college/index.php/3/](http://www.scu.edu.au/research/college/index.php/3/)

## **Student Life and Studying at Southern Cross University**

For information on the region, support services, accommodation, cost of living, and a virtual tour of the campuses follow the General Information and Student Life links at: [www.scu.edu.au/international/office/](http://www.scu.edu.au/international/office/)
