Ekaterina Vrublevskaya, Russia
Master of Advanced Health Services Management (Major Planning)

“The courses at UTS are very practice-oriented and based on real-life situations, and as a result have improved my problem-solving and critical thinking skills, which are essential qualities nowadays.”

* Scholarship will be assessed based on academic merit and submission of other required documents.
Research that counts
At UTS, we’ve got a growing reputation for future-focused research. From questions of technological disruption to the future of healthcare, big data and new ways of working, we’re delivering real solutions to the challenges of today – and tomorrow.
Research at UTS is conducted within 5 focus areas:

> Health
> Data Science
> Sustainability
> Future Work and Industry
> Social Futures

These focus areas align with the UTS vision, to be committed to practical innovation and to the development of impact-driven research that benefits industry and the broader community, helping to shape the world we live in.
